

## **A survey of intent to get COVID-19 vaccine at Campus Medical Clinic**

Monday, Mar 1, 2021, 11:24AM

Dear colleagues,

As announced by the Government, the Sinovac COVID-19 vaccine (CoronaVac) will soon be available through private clinics, which include our Campus Medical Clinic. The vaccine is completely free of charge, and will only be available to the five priority groups at this stage. For more information about the priority groups, please refer to this Government webpage <https://www.covidvaccine.gov.hk/en/programme>. Depending on the supply of vaccine by the Government, we may also be able to provide vaccine to staff's family members who reside on campus, and are among the priority groups.

If you or your family member intent to take the Sinovac vaccine at the Campus Medical Clinic, please respond by clicking this link [https://ust.az1.qualtrics.com/jfe/form/SV\\_42Zqj7ar2CVVjla](https://ust.az1.qualtrics.com/jfe/form/SV_42Zqj7ar2CVVjla), on or before this Wednesday, 3 March 2021.

Please note that your response is **not** a booking, when vaccine is available at the Campus Medical Clinic, a booking instruction will be announced. If you prefer the BioNTech (Comirnaty) vaccine, it will only be available from the Community Vaccination Center. Please pay attention to Government announcement, and information available from the COVID-19 vaccine website <https://www.covidvaccine.gov.hk/en/programme>.

Thank you for your cooperation.
