

Further updates related to the confirmed case and priority vaccination available to faculty and staff

Monday, Mar 8, 2021, 23:18PM

Dear Members of the University,

Up to now, all Tower 7 residents, except one household who is still waiting, have received negative COVID-19 test results.

The CMA mobile lab has completed its three days of operation on campus. Beginning from late afternoon last Thursday (4 Mar), through Friday and today, altogether more than 400 staff and students have used Prof Wen Weijia's rapid PCR screening test. So far all test results have been negative.

The Government has announced earlier today the COVID-19 vaccination priority groups have been extended to cover, among others, teachers and school staff <https://www.info.gov.hk/gia/general/202103/08/P2021030800738.htm>, and university faculty and staff are included. Beginning from 9 am tomorrow (9 Mar), colleagues can book online for a time slot at one of the Community Vaccination Centres (CVC) <https://booking.covidvaccine.gov.hk/forms/index.jsp> for either one of the two available vaccines, completely free of charge. Here is a list of the CVC and the vaccine they provide https://www.covidvaccine.gov.hk/pdf/List_of_CVC_Venues.pdf. For more information about the vaccination program, please visit <https://www.covidvaccine.gov.hk/en/>.

Staff can also continue to get the Sinovac vaccine at our Campus Medical Clinic, by enrolling through this link <https://www.healthconcepts.com.hk/promotions/hkustcovidvaccine>, or you can go to any other private clinics that take part in the COVID-19 vaccination scheme. We encourage all eligible members to get vaccinated to protect yourself and others.

We will continue to update the campus community when more information is available.

Take care,
Samuel Yu, Director of Health, Safety and Environment
