

## Launch of COVID-19 Info@HKUST Website

Thursday, April 16, 2020 4:48 PM

Dear Members of HKUST,

In order to help HKUST members to get the latest information including University arrangements relating to COVID-19, the University has developed a website <https://covid19info.ust.hk/> to consolidate all useful information on COVID-19 in one place. Colleagues and students can visit the website to find detailed information quickly and easily regarding the following areas:

- University's announcements and measures;
- University's latest COVID-19 related figures;
- Updated teaching and working arrangements;
- Availability of campus facilities and catering services;
- HKUST's efforts to fight against COVID-19;
- Health advices;
- FAQs

To continue to keep the University up to date with relevant information for possible follow-up actions, colleagues and students are reminded to report any travel and contact history in the past 14 days via the online report [form](#), which is also available in the website. We appreciate your patience and cooperation to work together to keep the community safe.

The University is committed to helping its members overcome the challenges of COVID-19. If you need any assistance during this period, you may contact the following offices for advice and support:

HSEO [safety@ust.hk](mailto:safety@ust.hk) – Campus health and safety matters; travel and contact reporting

VPABO [vpabo@ust.hk](mailto:vpabo@ust.hk) – Quarantine related matters

SHRLO [shrloinfo@ust.hk](mailto:shrloinfo@ust.hk) – Student housing

CMO [staffhousing@ust.hk](mailto:staffhousing@ust.hk) – Staff housing

Office of Global Learning [study.abroad@ust.hk](mailto:study.abroad@ust.hk) – Exchange programs

For study-related matters, please contact respective Schools and Departments.

We would like to thank all the colleagues from different units for helping to create the complete COVID-19 info hub in a short period of time. We will update the website whenever there is any new information on COVID-19, so our University community can continue to be well informed to stay safe.

Please continue to be vigilant against the disease and put safety first.

Mark Hodgson, Vice-President for Administration and Business  
Samuel Yu, Director of Health, Safety and Environment
