

Work from Home Arrangement

Tuesday, Dec 1, 2020, 9:34AM

Dear Colleagues,

In response to the Government's announcement and the escalating COVID-19 situation, the University will adopt a prudent approach to work arrangements to safeguard the health and safety of our members.

Starting from Wednesday, December 2, all staff should work from home until further notice, except for those who perform emergency and essential services. Unit Heads should discuss work plans and arrangements with staff.

Please refer to the University COVID-19 website for updates on campus operations and facilities such as transportation, catering and library.

The University urges everyone to be vigilant against the disease and put safety first.

Best regards,

Mark Hodgson
Vice-President for Administration and Business
